

6929 N. Lakewood Avenue Tulsa, OK 74117

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

June 16, 2022

Carrier: Verizon New England Inc., 6 Bowdoin Square, 9th Floor, Boston, MA 02114

Contact: For additional information on these planned network changes, please contact:

Marcia Chaffin Verizon Network Engineering 385 Myles Standish Blvd. Taunton, MA 02780 978-552-3638

John Dunne

Manager – Global Engineering and System Performance Verizon Wireline Network Operations 999 W Main St., 04 Floor Freehold, NJ 07728 732-683-5126

Implementation Date: On or after January 3, 2023

Planned Network Change(s) will occur at the following location(s) in Massachusetts:

Verizon Central Office	Address	CLLI
Sudbury MA DMS100	351 Boston Post Road	SDBRMABPDS0
Switch	Sudbury, MA 01776	
Newton MA C20 Switch	787 Washington Street	NWTNMAWAPS1
	Newton, MA 02460	

This notice may also be viewed at http://www.verizon.com/about/terms-conditions/network-disclosures

PLEASE NOTE:

- All references to the Sudbury MA DMS100 switch are associated with CLLI code SDBRMABPDS0 and will not be repeated throughout this notice.
- All references to the Newton MA C20 switch are associated with CLLI code NWTNMAWAPS1 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Sudbury MA DMS100 switch, located at 351 Boston Post Road, Sudbury, MA 01776, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Newton MA C20 switch, located at 787 Washington Street, Newton, MA 02460. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Newton MA C20 switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Sudbury MA DMS100 switch will be required to reposition the codes to the Newton MA C20 switch.

All ASRs for the Newton MA C20 switch must be received no later than November 15, 2022, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Sudbury MA DMS100 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Sudbury MA DMS100 switch (on or after January 3, 2023). This will serve to guide interconnect re-routes of traffic for the six (6) native codes currently served by the Sudbury MA DMS100 switch to reflect the Newton MA C20 switch as the new home switch. All ASRs for the Newton MA C20 switch must carry the project code of SDBRMABPDS0.
