Tulsa, OK 74117

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

March 15, 2023

Carrier: Verizon New York Inc., 140 West Street, New York, NY 10007

Contact: For additional information on these planned network changes, please contact:

Harvey Salzberg
Global Engineering and Operations
Verizon Wireline Network Operations
140 West Street, 5th Floor
New York, NY 10007
212-519-4852

John Dunne
Manager – Global Network Engineering and Operations
Verizon Wireline Network Operations
999 West Main St., 2nd Floor
Freehold, NJ 07728
732-683-5126

Implementation Date: On or after November 1, 2023

Planned Network Change(s) will occur at the following locations in New York:

Verizon Central Office	Address	CLLI
Kingsbridge NY DMS Switch	3001 Kingsbridge Avenue Bronx, NY 10463	NYCXNYKBDS0
Pearl Street NY C20 Switch	375 Pearl Street New York, NY 10038	NYCMNYSPS1

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Kingsbridge NY DMS switch are associated with CLLI code NYCXNYKBDS0 and will not be repeated throughout this notice.
- All references to the Pearl Street NY C20 switch are associated with CLLI code NYCMNYSPS1 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Kingsbridge NY DMS switch, located at 3001 Kingsbridge Avenue, Bronx, NY 10463, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Pearl Street NY C20 switch, located at 375 Pearl Street, New York, NY 10038. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Pearl Street NY C20 switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Kingsbridge NY DMS switch will be required to reposition the codes to the Pearl Street NY C20 switch.

All ASRs for the Pearl Street NY C20 switch must be received no later than September 1, 2023 to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Kingsbridge NY DMS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Kingsbridge NY DMS switch (**on or after November 1, 2023**). This will serve to guide interconnect re-routes of traffic for the eight (8) native codes currently served by the Kingsbridge NY DMS switch to reflect the Pearl Street NY C20 switch as the new home switch. All ASRs for the Pearl Street NY C20 switch must carry the project code of NYCXNYKBDS0.
