Tulsa, OK 74117

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

September 20, 2023

Carrier: Verizon Maryland LLC, 1 East Pratt Street, Baltimore, MD 21202

Contact: For additional information on these planned network changes, please contact:

Lisa Thompson
Global Data Network Engineering
Verizon Wireline Network Operations
13100 Columbia Pike, Floor 5 Room 505
Silver Spring, MD 20904
410-375-9777

Quadre Washington
Senior Manager – Global Data Network Engineering
Verizon Wireline Network Operations
320 Saint Paul Pl,
Baltimore, MD 21202
410-259-9829

Implementation Date: On or after **May 01, 2024**

Planned Network Change(s) Will Occur at the Following Maryland Location(s):

| Verizon Central Office | Address | CLLI |
|----------------------------|--|--------------------|
| Chapel Hill MD 5ESS Switch | 12814 Livingston Road Fort Washington, MD 20744 | FTWSMDCPDS0 |
| Hyattsville MD CS2K Switch | 5500 Baltimore Avenue Hyattsville, MD 20781 | HYVLMDHYP0 |

This notice may also be viewed at:

<http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Chapel Hill MD 5ESS switch are associated with CLLI code FTWSMDCPDS0 and will not be repeated throughout the notice.
- All references to the Hyattsville MD CS2K switch are associated with CLLI code HYVLMDHYP0 and will not be repeated throughout the notice.

Description of the Planned Network Change(s):

The Verizon Chapel Hill MD 5ESS switch, located at 12814 Livingston Road, Fort Washington, MD 20744, will be retired and removed from the Verizon network after all traffic served by this switch is migrated to the Hyattsville MD CS2K switch, located at 5500 Baltimore Avenue, Hyattsville, MD 20781. All traffic to be migrated to the Hyattsville MD CS2K switch includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC IXC), wireless and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

All carriers, including competitive local exchange carriers (CLECs), Interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers, will need to provision new trunk groups to support direct end office trunking to the Hyattsville MD CS2K switch or have existing trunk groups to that switch augmented.

All ASRs for the Hyattsville MD CS2K switch must be received no later than **March 20, 2024** to provide sufficient time to migrate the traffic described above. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Chapel Hill MD 5ESS switch (**on or after May 01, 2024**). This will serve to guide interconnect re-routes of traffic for the NPA codes currently served by the Chapel Hill MD 5ESS switch to reflect the Hyattsville MD CS2K switch as the new home switch. All trunks to the Hyattsville MD CS2K switch must be in place prior to the decommissioning of the Chapel Hill MD 5ESS switch. All ASRs for the Hyattsville MD CS2K switch must carry a project code of **FTWSMDCPDS0**.
