

6929 N. Lakewood Avenue
Tulsa, OK 74117

PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)

May 24, 2024

Carrier: Verizon New England Inc., 6 Bowdoin Square, 9th Floor, Boston, MA 02114

Contact: For additional information on these planned network changes, please contact:

Marcia Chaffin
Verizon Network Engineering
385 Myles Standish Blvd.
Taunton, MA 02780
978-552-3638

Quadre Washington
Manager – Global Engineering and System Performance
Verizon Wireline Network Operations
320 Saint Paul Pl.
Baltimore, MD 21202
410-736-4261

Implementation Date: On or after January 2, 2025

Planned Network Change(s) will occur at the following location(s) in Rhode Island:

Verizon Central Office	Address	CLLI
Centredale, RI DMS100 Switch	2194 Mineral Springs Avenue North Providence, RI 02911	NPRVRIMSDS1
Providence, RI C20 Switch	234 Washington Street Providence, RI 02903	PRVDRIWAPS1

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Centredale, RI DMS100 switch are associated with CLLI code NPRVRIMSDS1 and will not be repeated throughout this notice.
- All references to the Providence, RI C20 switch are associated with CLLI code PRVDRIWAPS1 and will not be repeated throughout this notice.

Description of the Planned Network Change(s):

The Verizon Centredale, RI DMS100 switch, located at 2194 Mineral Springs Avenue, North Providence, RI 02911, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Providence, RI C20 switch, located at 234 Washington Street, Providence, RI 02903. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Providence, RI C20 switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Centredale, RI DMS100 switch will be required to reposition the codes to the Providence, RI C20 switch.

All ASRs for the Providence, RI C20 switch must be received no later than November 15, 2024, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Centredale, RI DMS100 switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Centredale, RI DMS100 switch (**on or after January 2, 2025**). This will serve to guide interconnect re-routes of traffic for the five (5) native codes currently served by the Centredale, RI DMS100 switch to reflect the Providence, RI C20 switch as the new home switch. All ASRs for the Providence, RI C20 switch must carry the project code of NPRVRIMSDS1.
