

6929 N. Lakewood Avenue  
Tulsa, OK 74117

**PUBLIC NOTICE OF NETWORK CHANGE UNDER RULE 51.329(a)**

August 30, 2024

**Carrier:** Verizon New York Inc., 140 West Street, New York, NY 10007

**Contact:** For additional information on these planned network changes, please contact:

Harvey Salzberg  
Global Engineering and Operations  
Verizon Wireline Network Operations  
140 West Street, 5<sup>th</sup> Floor  
New York, NY 10007  
212-519-4852

Quadre Washington  
Assoc Dir – Global Network Engineering and Operations  
Verizon Wireline Network Operations West Main St., 2<sup>nd</sup> Floor  
320 Saint Paul Pl.  
Baltimore, MD 21202  
410-736-4261

**Implementation Date:** On or after March 1, 2025

**Planned Network Change(s) will occur at the following locations in New York:**

Verizon Central Office	Address	CLLI
Yonkers NY DMS Switch	40 Main Street Yonkers, New York 10701	<b>YNKRNYND1</b>
Pleasantville NY CS2k Switch	465 Marble Avenue Pleasantville, NY 10570	<b>PSVLNYPVPSA</b>

This notice may also be viewed at <http://www.verizon.com/about/terms-conditions/network-disclosures>

PLEASE NOTE:

- All references to the Yonkers NY DMS switch are associated with CLLI code YNKRNYYNDS1 and will not be repeated throughout this notice.
- All references to the Pleasantville NY CS2k switch are associated with CLLI code PSVLNYPVPSA and will not be repeated throughout this notice.

**Description of the Planned Network Change(s):**

The Verizon Yonkers NY DMS switch, located at 40 Main Street, Yonkers, NY 10701, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Pleasantville NY CS2k switch, located at 465 Marble Avenue, Pleasantville, NY 10570. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Pleasantville NY CS2k switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the Yonkers NY DMS switch will be required to reposition the codes to the Pleasantville NY CS2k switch.

All ASRs for the Pleasantville NY CS2k switch must be received no later than January 2, 2025, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the Yonkers NY DMS switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the Yonkers NY DMS switch (**on or after March 1, 2025**). This will serve to guide interconnect re-routes of traffic for the sixteen (16) native codes currently served by the Yonkers NY DMS switch to reflect the Pleasantville NY CS2k switch as the new home switch. All ASRs for the Pleasantville NY CS2k switch must carry the project code of YNKRNYYNDS1.
