

Up To Speed MSG Partnership

Hey, what's up V Teamers? I'm outside of Madison Square Garden with the exciting announcement

that Verizon's been named the official mobile wireless partner across the MSG portfolio. We're talking premium access to some of the most iconic venues and events, all the sports and entertainment.

Now let's head over to Basking Ridge, where Nick has the latest on the partnership and how you can get involved in all the fun this season.

Thanks, Herb. We're really excited to share with everybody today the magnificent announcement around the properties that are included in the Madison Square Garden portfolio.

This includes The Sphere, Madison Square Garden, Madison Square Garden Theater, Radio City.

The only type of partnership that Verizon can bring together is the network connectivity that we provide to our customers for these once in a lifetime experiences at the world class venues, as well as the access that we will provide and the ability to see some of the biggest concerts and greatest sporting events in the world.

But for V Teamers, they don't have to worry as well because they also are going to have access through myAccess for the ability to come attend and check out one of these amazing events.

We look forward to seeing both our customers and you guys at an event soon.

So it sounds like we're about to get a lot more access for our customers and V Teamers.

I'm going to hit up Nick to see if I can get some tickets.

Until next time you're up to speed.
