PREVIOUS EDITION UNUSABLE		STANDARD FC	0RM 30 (Rev. 10-83)			

- The purpose of this modification is to incorporate a change to Section B.3.2.2 providing an exception only for Broadband Ethernet Access to the rule that there must be a Serving Wire Center (SWC) price in order for a Network Site Code (NSC) price to be established on the contract.
- 2. The contract is modified as follows:

Section B.3.2.2 b) The following is added to paragraph b):

The sentence that immediately follows is the only allowable exception to the requirement that access prices for a SWC shall be established on this contract prior to adding any prices for NSCs served by that SWC. In cases where a domestic Broadband Ethernet Access price for a SWC is not on the contract, prices for up to two NSCs served by that SWC may be added to the contract. Thereafter, prices for additional NSCs may be added only after the price for the SWC that serves those NSCs is established on the contract. If necessary, NSC prices established under this exception shall be reduced to be no higher than the corresponding SWC price if and when the SWC price is added to the contract.

- 3. The estimated dollar value of the contract remains unchanged.
- 4. Except as provided herein, all prices, terms and conditions of the document referenced in Item 10A remain unchanged and in full force and effect.
