<p>Telecommunications Service Priority (TSP) Emergency Provisioning or Essential Provisioning are available on a per circuit one time charge with (e.g. customer location access circuit) or without (e.g. carrier backbone circuit connection) Local Exchange Carrier (LEC) terminations.</p> <p>TSP Emergency Provisioning is provided in response to an emergency, when the Customers need for a service is critical and must be provisioned at the earliest possible time, without regard to the cost to the Customer. In Emergency Provisioning Verizon will take immediate action to allocate the resources necessary to provision circuit(s) assigned an Emergency Provisioning priority level as soon as possible, including dispatching personnel outside normal Company business hours.</p> <p>TSP Essential Provisioning is provided for new essential National Security (NS)/Emergency Preparedness (EP) service that must be installed by a specific date that cannot be met using normal Company business procedures. In Essential Provisioning, Verizon will adjust its resources to make its best effort to provision the circuit(s) assigned an Essential Provisioning priority level, by the requested service due date, based on the priority level assigned. This requires a TSP Local Access Channel Charge for Provisioning or Restoration.</p>
