

Top ten reasons to choose Verizon solutions on CALNET NextGen

Customer guide

Verizon is already a trusted partner to thousands of California public sector organizations, from emergency management agencies to educational institutions.

Now the latest CALNET NetGen contracts offer a full array of innovative Verizon offerings that can help transform your organization and serve your community and constituents better.

Why choose Verizon solutions on CALNET?

1. Get access to new services.

If you're already using Verizon services, CALNET NextGen includes many new offerings. And if you're not, there's never been a better time to check out the new solutions available via convenient contracts.

2. Strengthen vital communication.

Reliable communication drives strong constituent relationships and productive teams. With Verizon, you can take advantage of Voice over IP (VoIP) and other phone services that give you the reliable, available communication you need.

3. Partner with a VoIP leader.

Verizon offers powerful VoIP solutions that help strengthen and expand your agency's communication capabilities including working remotely. That's why we're such a trusted choice for VoIP services among California agencies.

Public sector agencies stay with Verizon year after year because we deliver a winning combination of advanced solutions, responsive support, and an ongoing commitment to helping state and local governments solve complex problems.

4. Get the Speed, Reliability & Security of the Verizon Network.

The reliable, secure Verizon network provides the availability that your agency needs. That's why so many public sector organizations choose Verizon as their technology partner—year after year.

5. Deliver an exceptional digital experience.

As in-person contact with constituents decreases, delivering a satisfying digital experience matters more than ever. Today's constituents want fast and convenient access to services, resources, and answers. With Verizon solutions, you can give your constituents what they want, quickly and easily with AI, raising their satisfaction with governance.

6. Personalize your contact center.

Our virtual contact center solution helps you deliver a personalized experience to citizens, directing them to the right responses and resources.

7. Take collaboration to the next level.

Our premier cloud calling solution brings together VoIP, SD-WAN, Webex calling and more. It leverages Verizon's global network strength and market-leading VoIP portfolio to bring you first-class collaboration capabilities.

8. Stay protected.

When you partner with Verizon, you get the extensive security offerings that protect your communications, your people and your organization. In a time when the public sector is experiencing more and more threats and attacks, security matters.

9. Add wireless services.

Extensive Verizon wireless services are also available on the CALNET NextGen contracts, giving you a comprehensive source for communication and collaboration solutions. When you choose Verizon, you benefit from years of wireless expertise and leadership.

10. Experience Verizon support.

Verizon customers know that we take exceptional care of public sector agencies of all sizes and missions. We'll help you every step of the way as you transform your agency.
