 - GoToMeeting

Yealink UVC34 is a compact, all-in-one intelligent USB Video Conferencing meeting bar for small offices, huddle rooms and work from home employees. Featuring ultra HD 4K camera and 120° super-wide-angle lens, and supports 5x digital zoom, UVC34 delivers outstanding video quality. Superior audio performance is enabled with Yealink Noise Proof Technology, dereverberation and full-duplex features, built-in 8 microphone array, and 5W high fidelity speakers, allowing users to hear and to be heard clearly without distraction.

Key features and benefits

Ultra HD 4K camera | Super-wide 120° field of view

Ultra HD 4K camera with 1/2.8-inch CMOS creates a UHD 4K video conference with delicate details. Everyone in the conference can be seen without adjusting the camera with the super-wide 120° field of view. Image brightness can be automatically optimized even in a dim or backlight environment, ensuring participant faces can be seen clearly.

Immersive visual experience

The UVC34 not only delivers the best-class image quality with natural color reproduction, but also smooth video and details, optimizing the meeting experience for users. The UVC34 also supports multiple resolutions, including 4K/30FPS, 1440P/30FPS, 1080P/30FPS and 720P/30FPS, to adapt to different displays and applications.

Secure conference with electric lens cap

The camera electric lens cap automatically opens when the video conference starts and remains closed when not having video conferences, securing your privacy.

All-in-one design, portable and easy to install

By integrating audio and video, UVC34 takes up less space and can be put into a backpack. It can be used by simply hanging on a TV or monitor without any deployment cost, improving your work-from-home experience.
